Vincent Dooley
Floor.ie

April 2017

We have dealt with Floor.ie on two separate occasions and would have no hesitate dealing with Vincent again or recommending Floor.ie. After putting our requirements out to tender Floor.ie was the best quality, best value for money and very professional. Vincent and his team turned up on time as planned and the job was completed in the timeframe specified with the least disruption to the centre and the everyday running of the centre. Vincent was more than willing to work around our needs. It was a pleasure dealing with and having Vincent and his team here in Blanchardstown CTC.
